

Custom Metal Fabrication • Canadian Quality • Unified Expertise

MBI Industrial Manufacturing Group is a leading Canadian fabricator offering a one-stop shop for design, prototyping, and production. Through trusted partnerships and in-house expertise, we deliver fast, precise, and high-quality custom solutions.

From concept to completion, MBI combines deep expertise, modern equipment, and seamless coordination to execute your project on time and to spec—every time.

Why Work with MBI?

One-Stop Shop

Everything is designed, engineered, and built in our Ontario facility.

Custom Build

Our solutions are specifically tailored to meet our client's requirements.

Partnership

We work closely with our clients from initial concept to final installation.

Training

Our installation training program guarantees a flawless rollout.

Experience

Our expert team has a combined 100+ years of experience.

Customer First

Our team prioritizes a client-focused approach.

Technology-Driven

Innovation Utilizing 3D CAD, advanced machining, and automation.

Certified Quality & Precision

Certified welding and high-precision machining.

Canadian

Canadian Owned & Operated.

INDUSTRIES WE SERVE

- OEMs & Equipment Manufacturing
- Food & Beverage Processing
- Automotive & Transportation
- Agricultural & Heavy Machinery
- Aerospace & Defense
- Medical & Healthcare Devices
- Renewable Energy & EV
- General Industrial & Plant Operations

Let's Build What's Next—Together

When you work with MBI, you get the power of a national Canadian manufacturing group with the simplicity of a single point of contact.
